Customer Reviews

I did not expect the quality of these posters. These are large glossy PHOTOGRAPHS on heavy photo paper, with incredible color intensity. I thought they would be poster quality. I don't know how they can afford to sell these at the price point. I hung them in my nine-year old's bedroom and he loves them. I would order again.

I have these in my classroom. The size is just right, students can see them from across the room. I really like the fact they do not have the word translation. Students have to interpret the picture to get the meaning, I love to make my students think and not just "copy paste". Worth the price , good product!!

These are perfect for my classroom. My mentor teacher had them when I was student teaching and this was the first thing I've purchased for my own classroom. They are fun but also really helpful. A couple of them are kind of confusing, but the message is still very clear. I'm so excited to hang

these up soon.

Great posters for my classroom they are laminated and so colorful they look great in my wall!!

I wish other signs can be made maybe something with major verbs that are commonly used at a reasonable price like these. My students love the signs and the cartoons that came along with it

these are very easy for the students to figure out and are just the right size!

Love these for my Spanish 1 classroom!

These are amazing and soooo good
