## Customer Reviews

The hardcover is the novel and the softcover is the manga! Have both and love them!

Length: 0:06 Mins

If you are a fan of the Anime or Manga by the same name ( or just someone who loves scary/creepy books ) then you definitely have to pick this book up. This novel is where it all started, and you can finally own an english translated copy in PRINT thanks to the awesome Yen Press. I thought the translation was pretty good, everything made sense to me. I didn't feel like I was missing anything. That being said, this is by far the scariest/creepiest book I have read, and I probably won't find one

scarier/creepier. I have read some scary books in the past, but didn't really feel anything with those. With this book, I definitely felt creeped out if not full on scared. I actually had to keep my bedside lamp on all night because for some reason I thought it was a good idea to read in the middle of the night before I went to bed. It might not be that way for you, though. I am kinda a lightweight when it comes to scary/creepy things. But whether you're a lightweight or not, I highly recommend getting yourself a copy of this book!

I received this book for free through Goodreads First Reads. In no way does that influence this review. First off, the artwork is absolutely beautiful. The colored pages at the start of each volume are amazing. I really enjoyed the story, it's very different than most manga I read. Page after page, I just couldn't put it down. It was so interesting, I just had to know what was going to happen. The story will keep you on the edge of your seat. You won't be disappointed with the ending. I thought I knew what was going to happen and I was completely wrong. I definitely recommend reading this manga and experience it for yourself.

I had to get this manga after finishing the anime since I was left with an urge to know more about the story behind Another. Though I am not into horror stories, I was blown away with the suspenseful intro. The author did an amazing job with the pace of the story along with keeping you on edge and guessing all the time. I must say that the anime stays true to the manga with some differences with scenes and character appearances. If you are looking for an intriguing horror thriller, then look no more! You'll have a blast reading this story since the manga is drawn beautifully

So for those of you who are not sure, like I was, this is not the translated novel. This is the translated manga with all the volumes in one. However I am still happy with my purchase. I received it in a timely manner and I have no complaints. Great series that'll give you the creeps!

Decided to purchase this after watching the anime and I must say that it was worth it even knowing the general plot line beforehand. The art and character designs are much more detailed than those of the anime and the characters look a little more mature as well. The plot is interesting and will keep you on the edge of your seat until the very end. One of the best, if not the best, horror mystery manga out there. Highly recommended!

Even after seeing the anime, I wasn't prepared for this masterpiece. Not only did it tell the story the

anime made me fall in love with, but it had so many extra details the anime left out, really helping flesh out the characters more. I'm certain the original novel has even more of this, but it is still great to get this extra bits of information. Apart from the story, the art style of this manga is, quite simply put, gorgeous. It really drew me into the story even more, making me feel a bit more of the impending sense of dread that the students of Class 3-3 felt as the story moved forward. In the end, with the combination of the fantastic story, gorgeous art style, and the cheap price, I would wholeheartedly recommend this manga to any lover of psychological thrillers, psychological horror, or mystery stories.

My son wanted *Another* from the moment he saw the shows. He has felt the same way about other shows and bought the books and not been overly impressed, but he truly loves this book and he is picky about this kind of thing. Recommended for anime and manga fans.
