The Gothic World Of Anne Rice

Synopsis

This anthology argues for the serious study of the literary oeuvre of Anne Rice, a major figure in today's popular literature. The essays assert that Rice expands the conventions of the horror genre's formula to examine important social issues. Like a handful of authors working in this genre, Rice manipulates its otherwise predictable narrative structures so that a larger, more interesting cultural mythology can be developed. Rice searches for philosophical truth, examining themes of good and evil, the influence on people and society of both nature and nurture, and the conflict and dependence of humanism and science.

Customer Reviews

The gothic world of Anne Rice is an absolute must have for both fan of the gothic, vampirism or scholar. The anthology is A direct rout into the marvellous world behind the authour. Not only does it convey an uncharted depth of her literature, but is also A direct approach to A more academic criticism. This book is of universal appeal because it charts A thought provoking descent through her key best sellers. For any reaserching vampirism especially, or just fasinated by this tallented writer this book is essential. It provides integral essays which traverse themes of anthrapology, in which is discussed how |Rice's characters assume A place in modern society, through to her more historical novels. But more invaluable are the essays which discuss her infamous vampire characters. In these essays is disclosed the intrinsic roots of vampirism and the gothic, linking back to witters of the Romantic epoch. They also provide A rich source of information, which deals with the more

academic side of the gothic as well as A direct insight into the novels themselves. It is well researched, astute and perceptive. With Rice's work rapidly becoming recognised for its academic appeal this book provides A critical idiom of her work and deserves A place on the shelf of any avid fan of the gothic, vampirism, or who is just enchanted by the pen of this literary sorceress.

This book takes you to a place where you can feel the passion of Anne Rices works.he is brilliant. What woundn't a person do to meet the creater of the Vampire Chronicles And The Lifes of the Mayfair Witches.She is incredible.

A book all Anne Rice fans should own!!! In addition to the Vampire Companion and the Witching Comanion and all the other works that deal with her novels lol.
