Chinese Link: Beginning Chinese, Traditional Character Version, Level 1/Part 2 (2nd Edition)

Synopsis

ChineseÂ Link, 2eÂ provides a practical, learner-centered and enjoyable language and cultural learning experience for beginning students of Chinese, as well as an efficient and comprehensive teaching resource for instructors. Â This best-selling text takes care to introduce and explain grammar points clearly and systematically, yet not in a fashion that would be overwhelming to beginners. In keeping with the communicative focus of the text, grammar points are related to communicative task-oriented content. The textbook presents both traditional (complex) and simplified versions of Chinese characters, since learners will encounter both forms during their course of study or in travel abroad.Â Photographs and drawings make the text vivid and eye-catching, and to provide visual cues to aid in communicative exercises and activities. And the Video Program to accompany the â œLanguage in Useâ • sections enhances the in-text dialogues by presenting them in authentic settings.Â

Book Information

Customer Reviews

I got this book for my Chinese class, I actually got the wrong book! We were using the Simple Character Version. Both of the books would work, I actually think traditional Chinese characters look a lot prettier than simple.

This is a pretty good resource for Chinese learning, but be aware that it does not teach you anything about the culture and why some words are not used anymore due to their changed meanings. This

book teaches you how to talk like a robot, which is a good way to start. Anyway, I recommend this to beginners, but do a little history reading about China before you simply go over there calling people names!!!

I liked that it was binder because the one at my school was not binded, so it need to be put into a binder. The one at my school also included all the audio cps and access codes, but it was 80.00
WARNING: This does not come with an access code card, you have to buy it separately. That was a major downer.

The quality is beyond my expectations. It was good as new. No writing or highlight. So easier to study without written answers as distraction. Thank you

Great instruction book. Never realised second-person narratives existed until now. And it's been 5 years since HS, which tells you a lot about American HSs.

I can communicate very well after using this series. I will always use this book to review again and again.
