## Synopsis

Communication is essential to providing life-saving emergency care. In our diverse, multicultural society, English is not always the primary language spoken by patients. ## Customer Reviews

This publication is a priceless tool on the streets of Cincinnati. It allows non-spanish speaking ems providers a opportunity to assess a patient with a language barrier that no longer exist.

I have not had to use it in the field yet. I was going to make my own translator. This one is so much better than I could have done. It should be very useful.

Would absolutely do business with this company again. Item arrived ahead of schedule and has been a very handy reference.
