EL CANCER NO ES UNA ENFERMEDAD (Spanish Edition)

Synopsis

Este libro presenta una concepción totalmente nueva del cáncer. Por lo general, los tratamientos convencionales, en los que se matan, cortan o queman las células cancerosas, ofrecen a la mayoría de los pacientes una remisión de la enfermedad del 70 %, y la mayor parte de los sobrevivientes quedan «curados». Moritz muestra por qué los tratamientos contra el cáncer pueden ser fatales, qué es lo que realmente causa el cáncer y cómo eliminar los obstáculos...

/ This book presents a totally new concept about cancer. In general, the conventional treatments, where cells are killed, removed or burned, offer most patients a 70 percent chance of remission from the cancer and most survivors are ""cured"". Moritz shows why cancer treatments may be fatal, what really causes cancer and how to eliminate obstacles.

Customer Reviews

People love fast and easy treatment. Labs can only diagnose cancer after the body starts degenerating cells for at least 10 years. This is a result of a defense mechanism, (the body encapsulate something bad). If you have patience like your body then you need to read and practice what is writing in this book and many others. My brother having lymphatic cancer for about 4 years now, never stop working, never accept chemotherapy or radiotherapy. Yes it is a long journey, love and dedication is needed.

I had heard about this book but was skeptical until I read it. It confirmed me that God does not

create rubbish. Our body is meant to last a long time, if we take good care of it. One has to read this book from cover to cover. What it says is logical. Be open minded and you won't regret reading it. You have to read it, period.

Esencial leerlo, deberÃ- a ser un concepto familiar para todos.

It inform me with all the information I needed about cancer

fast shipping , product as described!!
